

## Prices

### Prices

Many patients want to know the price of the procedure they are interested in before deciding to have it. While this makes perfect sense, the price of a procedure will vary somewhat depending on exactly what the individual patient needs to have done, to have the optimal result. Furthermore, while the patient thinks they need one procedure, they may in fact need another or additional procedures to have the best outcome. Finally, the location of the surgery (hospital or our office surgery center) and the type of anesthesia (general, intravenous sedation, or local) also affects the price. All of these options need to be explained and discussed during the initial consultation.

For these reasons, it is not possible to give a specific price for any procedure over the internet without examining the patient.

If you are interested in the approximate cost of a procedure, please call the office (954-463-7088) and speak to Lucy, the office manager. She will need to get some basic information from you and then she can give you an estimate of the cost.

For an exact quote, you will need to be seen by Dr. Wigoda so that he can evaluate you and see exactly what procedures will be performed.

Dr. Wigoda is happy to answer questions you have about a procedure over the internet. However, if your question is only about cost, please call the office and Lucy will be happy to help you.

Please remember that while cost is one of the considerations in your decision to have cosmetic surgery and in deciding who will be your surgeon, "shopping" by price can be risky.

Interested in Financing your surgery?

Dr. Wigoda works with two companies: Care Credit and Reliance Finance Company.

You may apply online with either or both of these companies prior to your consultation to see what amount you qualify for.

To apply with Care Credit

visit: [www.carecredit.com](http://www.carecredit.com)
